ABOUT

Enthusiastic and results-driven Computer Science Engineering undergraduate with a strong foundation in Java, Data Structures, Algorithms, and Object-Oriented Programming. Currently learning full-stack development using the MERN stack (MongoDB, Express.js, React.js, Node.js). Developing skills in building modern, user-centric interfaces and understanding efficient backend systems. Passionate about problem-solving, writing clean and optimized code, and continuously enhancing skills in software development and web technologies.

EDUCATION

IMS Engineering College

B. Tech (CSE) – 9.0 GPA

July 2023 - July 2027

Satya Sai Inter College

Intermediate – 82.1%

April 2020- March 2022

Satya Sai Inter College

High School – 86.3%

April 2018 - March 2020

TECHNICAL SKILLS

- **Programming:** Data Structures and Algorithms, OOPS, DBMS, FullStack.
- **Languages:** Java, C, JavaScript, HTML, CSS, MySQL.
- **Frameworks:** ReactJS (Library), Node Js, Express js., Bootstrap, Tailwind, MongoDB
- **Technologies:** Git, GitHub, Gemini, MySQL, Firebase, Rest Api; .
- **Skills:** Data Structure and algorithms, Web Development, C, OOPS, AI.

PROJECTS

PICGUESS – Real-Time Multiplayer Drawing & Guessing Game | React.js, Node.js, Express.js, Socket.io April 2026 – May 2026

- Developed a real-time multiplayer drawing and guessing game inspired by Skribbl.io with room-based gameplay and live player interaction.
- Implemented WebSocket communication using Socket.io for real-time drawing synchronization, chat messaging, score updates, and timer management.
- Built responsive frontend interfaces using React.js and Tailwind CSS and developed backend game logic using Node.js and Express.js.
- Integrated features like collaborative whiteboard, live chat, dynamic scoreboard, round timer, and automatic drawer rotation.
- Focused on real-time systems, multiplayer synchronization, and event-driven architecture.
- visit – [PicGuesser](#)

Smart Student Dashboard | HTML, CSS, JavaScript, Tailwind ,Firebase Sep 2025 – Nov 2025

- Developed an all-in-one student productivity platform featuring an AI study assistant, interactive whiteboard, and progress tracking system.
- Built using HTML, CSS, and JavaScript with MySQL for managing user data and study records.
- Integrated an AI assistant to help students with study planning, concept explanations, and personalized guidance.
- Designed a collaborative whiteboard for taking notes, drawing diagrams, and brainstorming ideas in real time.
- Focused on creating a clean, responsive, and user-centric interface to enhance the learning experience.
- Visit: – [Smart Student Dashboard](#)

Mini Web Games Collection | HTML, CSS, JavaScript Dec 2024 – Jan 2025

- Developed a collection of interactive browser-based games including Snake Game, Flappy Bird, Rock Paper Scissors etc games.
- Strengthened core JavaScript skills through logic building, DOM manipulation, and event handling.
- Designed responsive and visually engaging user interfaces using HTML, CSS, and animations.
- Implemented core concepts such as game loops, collision detection, scoring systems, and user interactions.
- Visit - [Retro Games](#)

ACHIEVEMENTS/CERTIFICATIONS

- Secured **8.7** average GPA till 5th semester , reflecting strong academic performance and consistent dedication.
- **AIR ~ 11000** in GATE 2026.
- Won 1st Prize in Build S Win and 2nd Prize in Ctrl+Alt+Defeat coding competition during TechSpardha at IMS Engineering College. [Certificate](#)
- Won **1st Prize** in the **Tech Quiz** competition at **IMS Engineering College**. [Certificate](#)
